Assembly

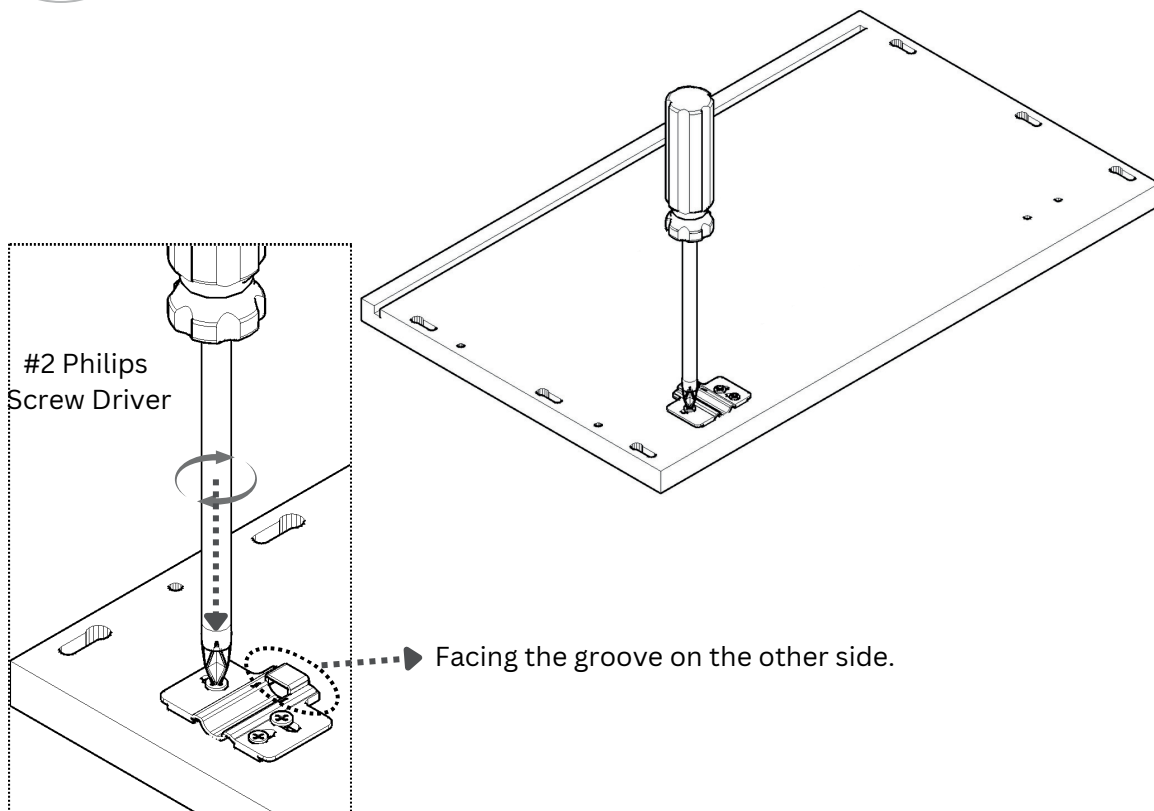

Step 1

Installation - Side Panel (Gable)

Lay the side panel on a soft surfaces on the ground.

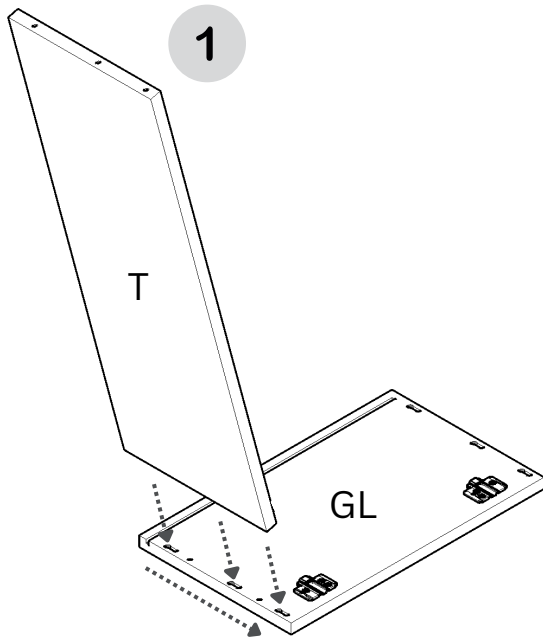

The screws are on, but you need to tighten them.

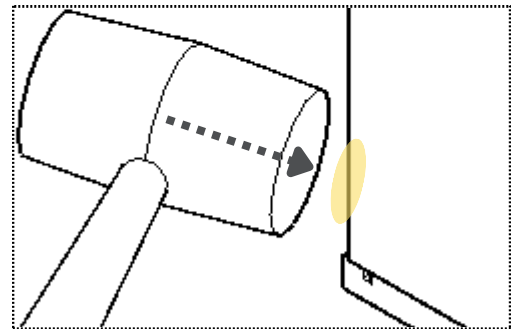

Step 2

Installation - Top Panel

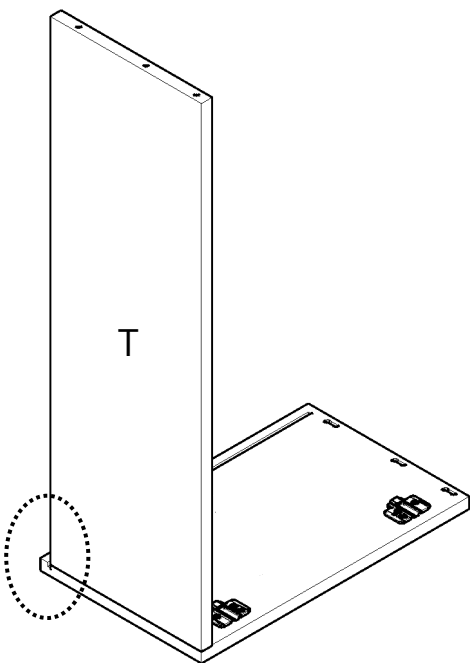

2

Use Mallet to hit the top panel all the way over the groove

To achieve:

The side of top panel is beyond the groove.

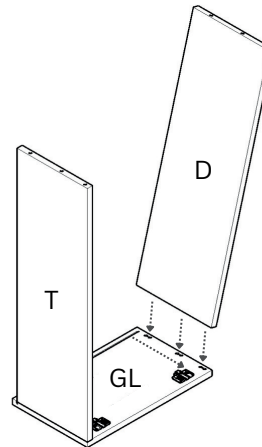

Step 3

Installation - Deck (Bottom)

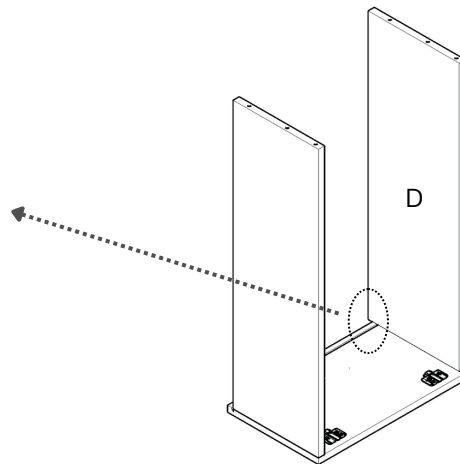

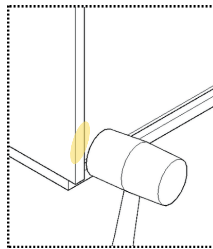

1

Tap the deck with a mallet until it is fully seated on the groove.

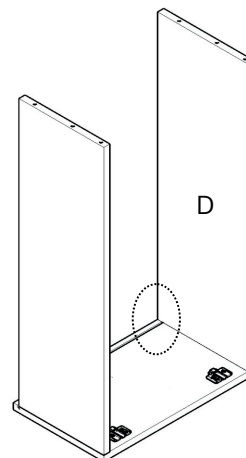

2

Align the deck(D) with the side gable(GL).

To achieve:

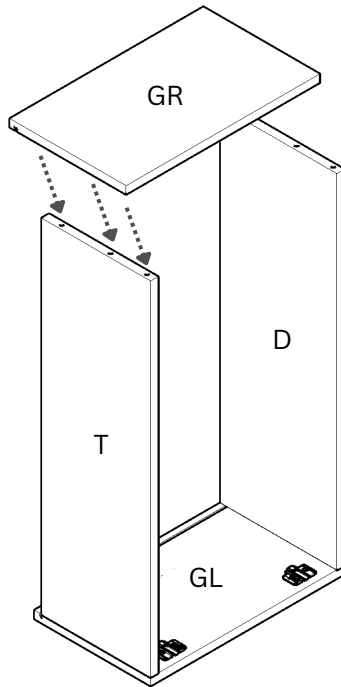

The Deck is on the groove.

Step 4

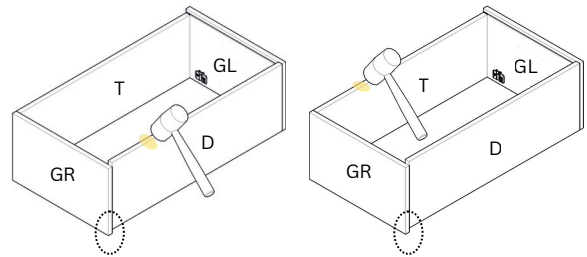

Installation - Other Side Panel

1

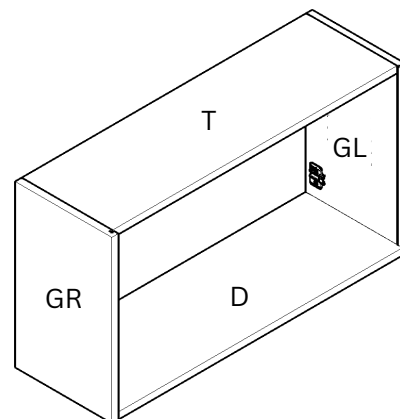

2

Gently tap the top and deck (GR), alternating between them.

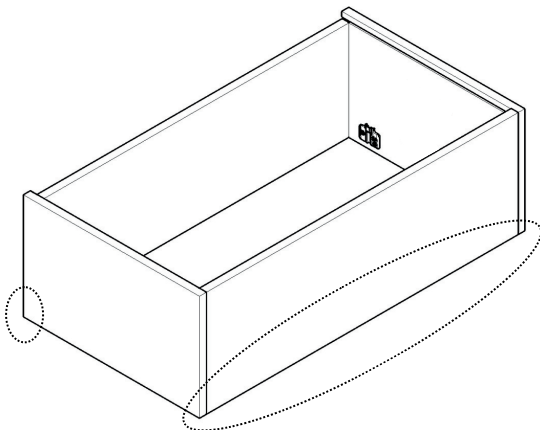

3

Lift the box and set the top panel on top, with the grooved side facing you.

To achieve:

To align the right gable to be flush with all other panels on the ground.

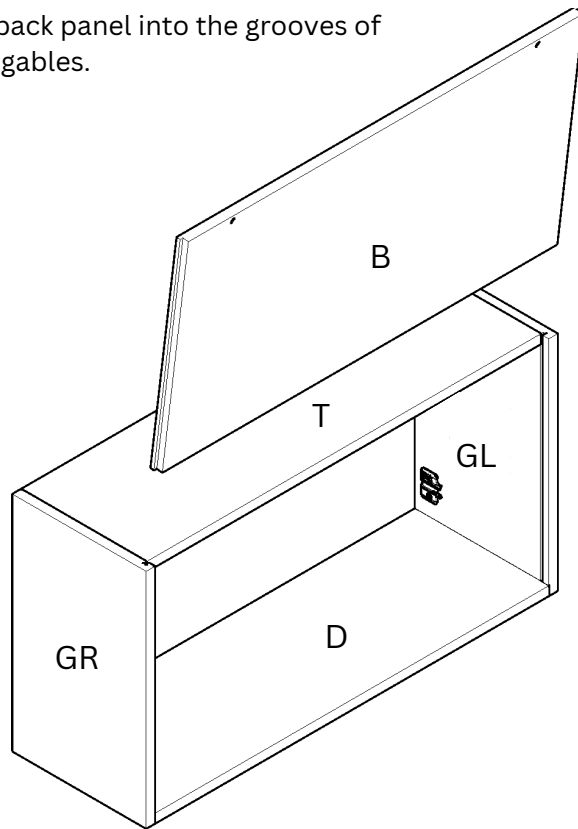

Step 5

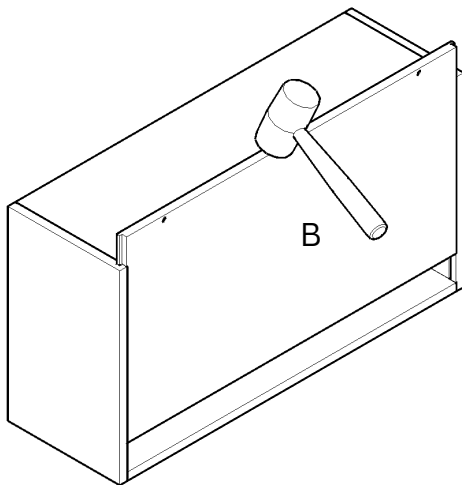

Installation - Back

1

Slide the back panel into the grooves of both side gables.

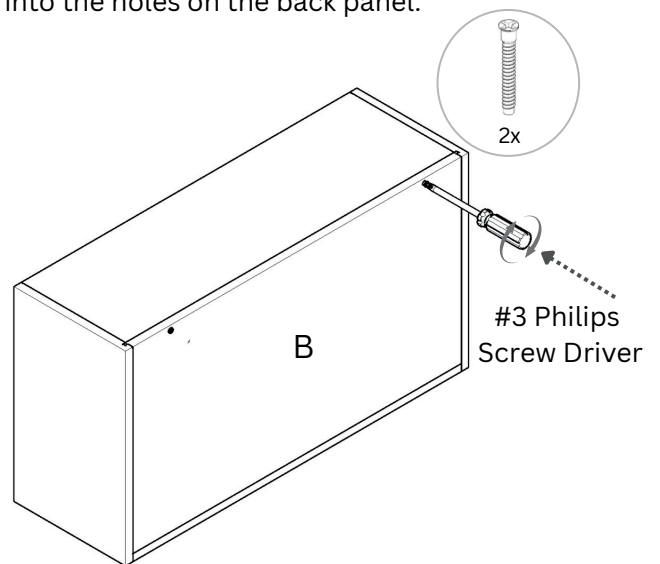

2

3

Screw the two confirmat screws into the holes on the back panel.

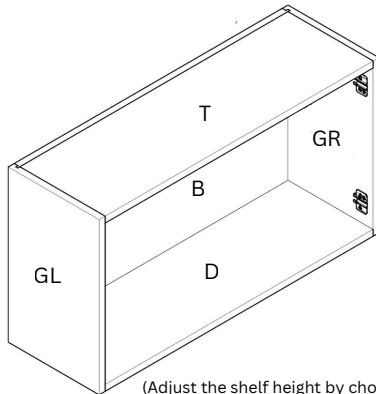

Step 6

Installation - Shelf Clip and Shelves

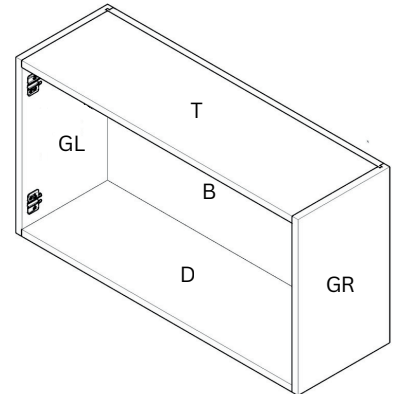

1

Insert the plastic shelf clips into the middle holes on the Gables: GL(Left Side Panels).

2

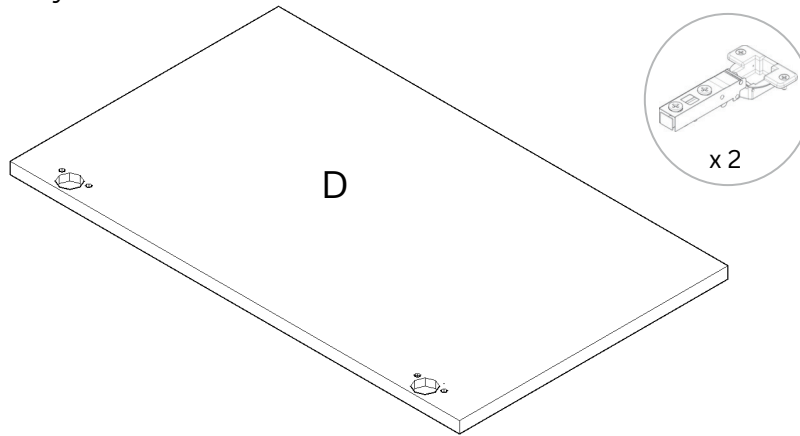

Insert the plastic shelf clips on other side panel(GL).

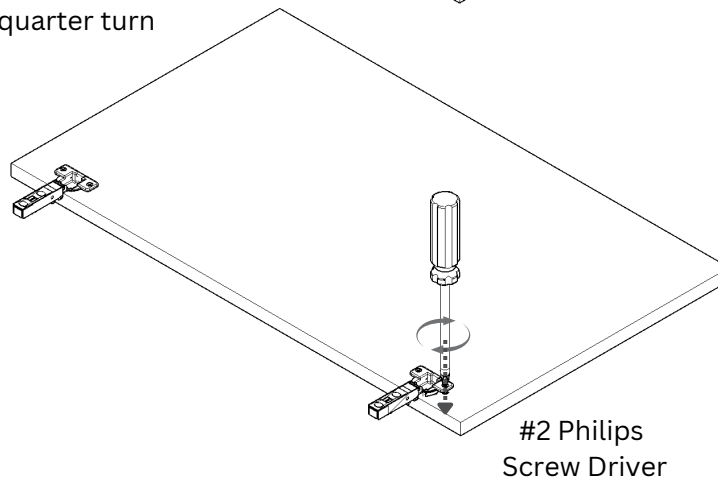

Step 7

Installation - Hinges on (Doors)

- 1** Push hinges all the way into the holes.

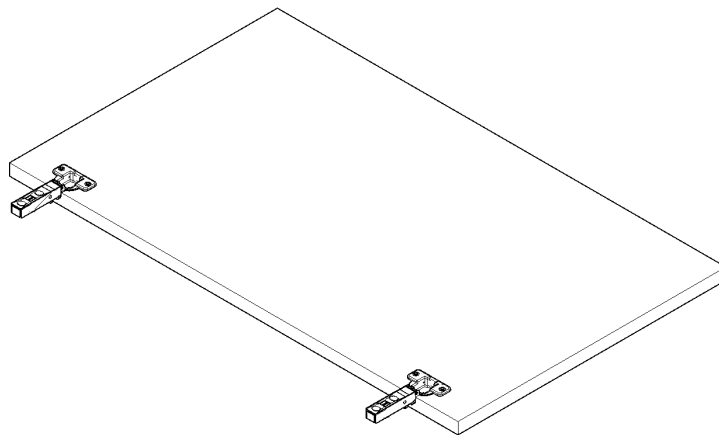

- 2** Tighten screws, a quarter turn to lock it in place

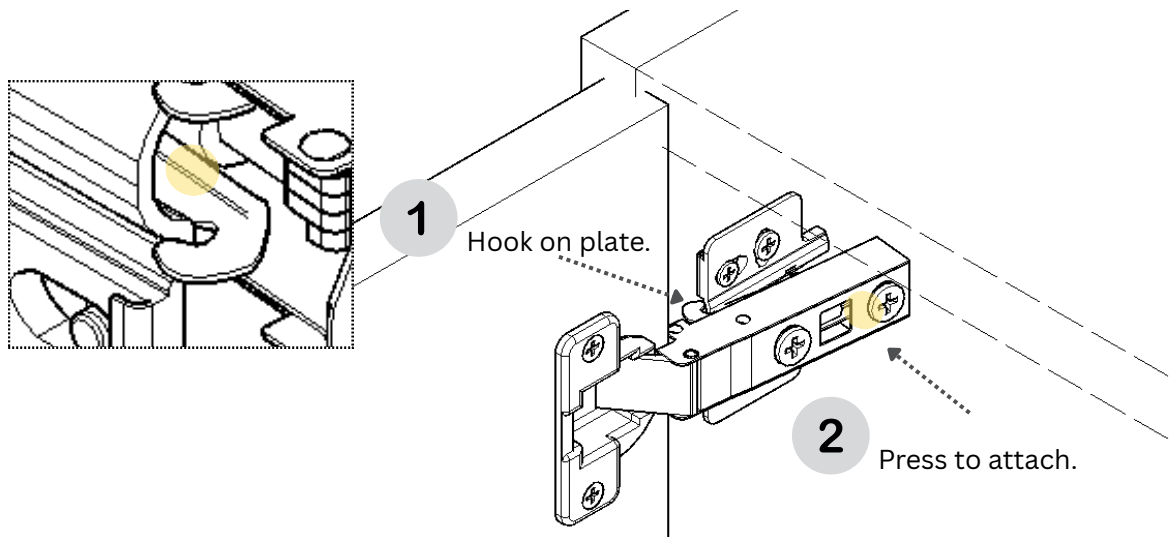

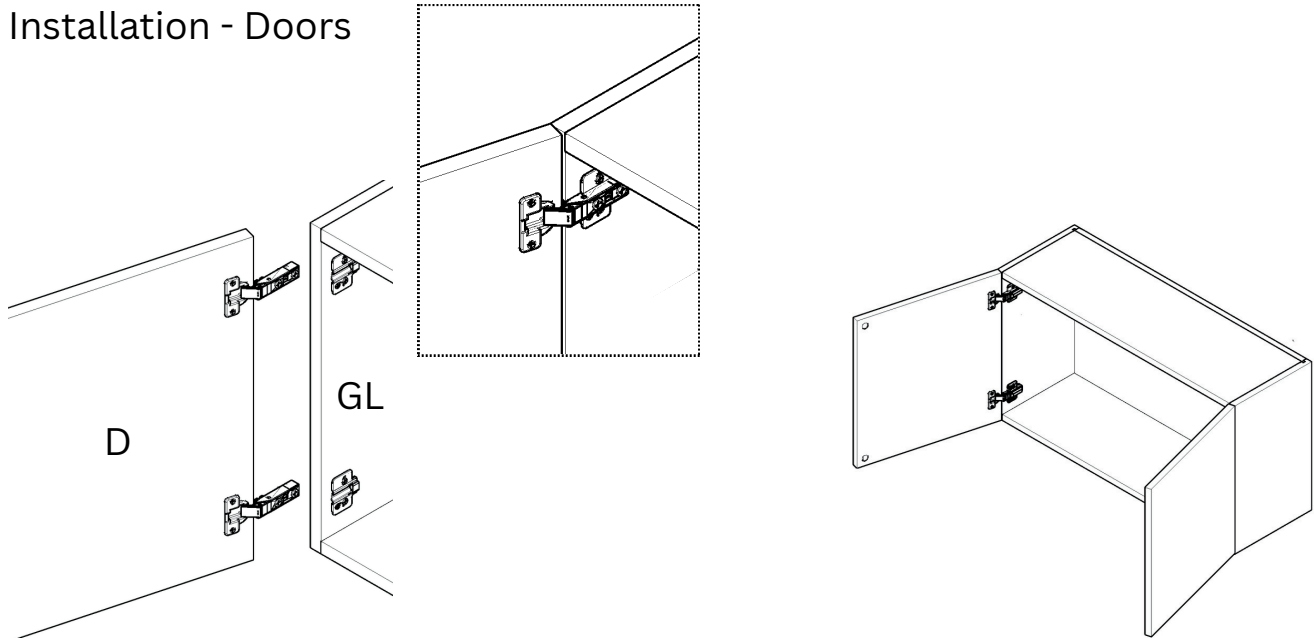

To achieve:

To seamlessly attach two hinge plates to the door panel.

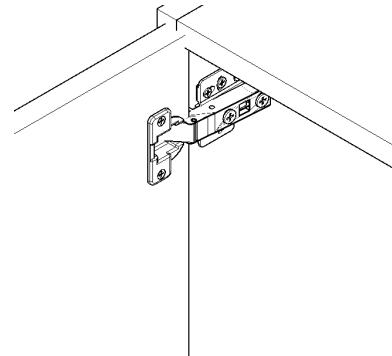

Step 8

Installation - Doors

3

A 'SNAP' sound is the confirmation of a successful installation.

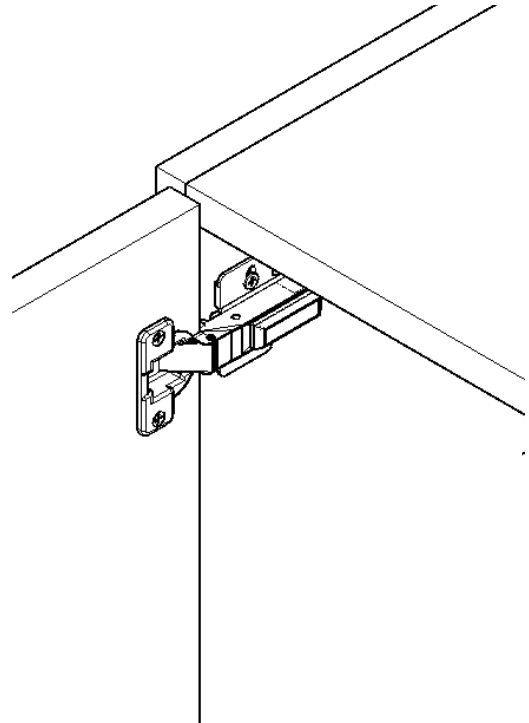

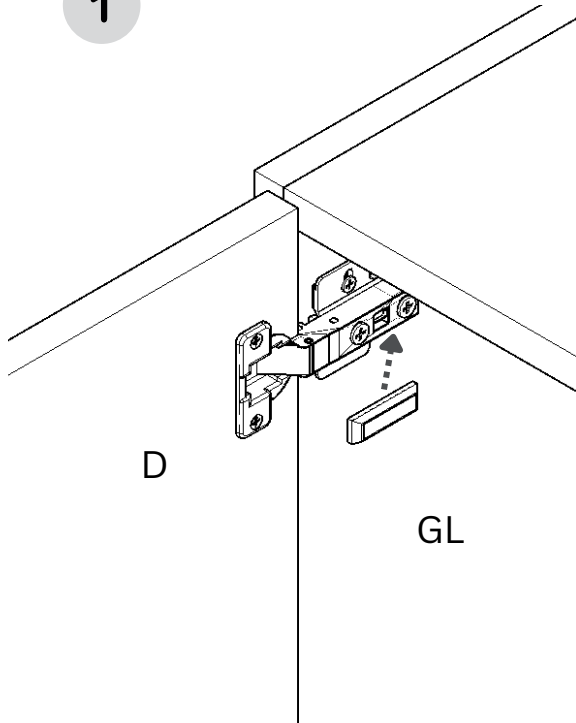

Step 9

Installation - Accessories

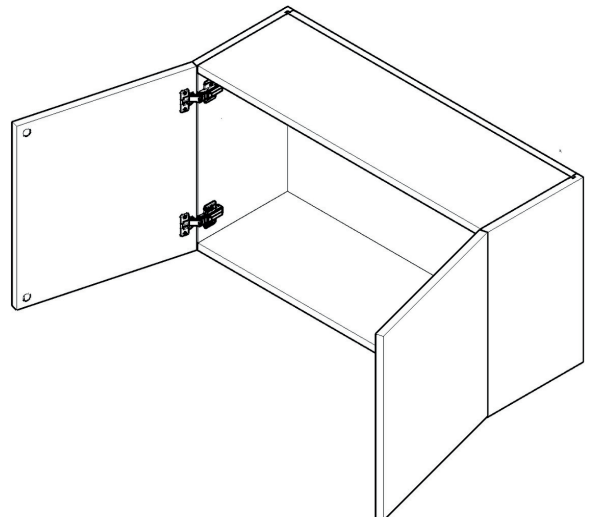

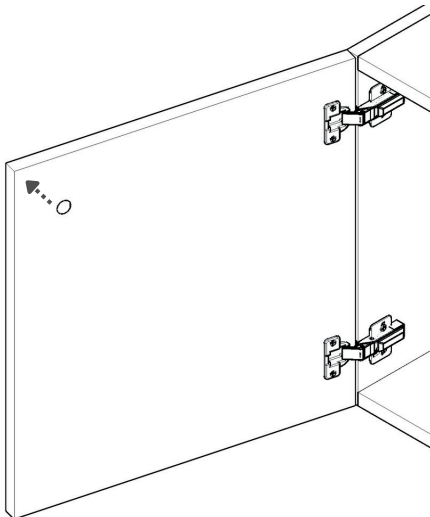

1

Snap the hinge cover onto the hinge.

2

Stick the two bumpers to the inside corners of the door.
